

Landscaping & Exterior Design Services

CBM Corp's Landscaping Division provides year round professional landscaping and maintenance services for all commercial properties including office buildings, universities, shopping malls, hospitals and medical centers, large estates, condominium and apartment complexes.

Visitors form an opinion about your business before they even step through your front door. The landscape experts at CBM will provide exceptional care for all of your landscape needs as well as providing an on-going grounds maintenance program.

Our grounds maintenance division is a specialized team of experienced gardeners and trained horticulturists who look after the maintenance of existing grounds. We also work extensively with management companies, designing, installing and maintaining gardens and grounds within residential complexes. Our teams are on hand to carry out full installation of plants, trees and other soft landscaping. Keep the exterior of you facility as pristine as the interior with the help and experience of CBM's professional trained landscaping team.
