

Floor Care Services

CBM Corp's Floor Care Division specializes in the daily maintenance of all types of building floor surfaces - especially those high traffic hallways and heavily used walkways. We also offer specialty services like diamondizing stone floors, strip and wax, carpet shampooing and data center sub flooring cleaning programs.

CBM's experienced floor care professionals offer carpet maintenance programs that will not only keep your carpet looking beautiful but it will help extend the life of your floor covering investment. Polished floors and stain free carpets will help project a positive image about your business and facility to employees and guests.

We also offer emergency spot removal services to help combat unexpected and unsightly stains that arrive quickly and must be removed just as fast to prevent long term damage. At CBM we strive to use the most environmentally friendly cleaning products available.

We know that being committed to quality service is not enough. We also know that from the very first conversation we share with a client to the final walkthrough of a completed job, that our ability to pro-actively plan and effectively react to our client's needs is our primary goal. You can be sure that CBM will get your floors clean - and keep them that way!
